West Don Lands Kick-off Event

The Toronto Waterfront Revitalization Corporation and our community and government partners have reached an important milestone in the revitalization of Toronto's waterfront — work is now underway in the West Don Lands to build Toronto's first new waterfront neighbourhood.

On behalf of TWRC and our partners, I would like to invite you to attend an event to celebrate the start of work in the West Don Lands and to recognize the contribution that you and others have made in realizing this significant achievement. The Honourable John Baird, President of the Treasury Board and the federal Minister Responsible for the Toronto Waterfront Revitalization Initiative, The Honourable David Caplan, Ontario Minister of Public Infrastructure Renewal and His Worship Toronto Mayor David Miller will be joining us at this event.

The event will be held at **9:00 a.m. on Monday March 27, 2006** at 645 King Street East (King Street and Bayview Avenue). The event site will become part of the northern terminus of the 19-acre Don River Park and the soon to be developed North River Square Neighbourhood.

If you are traveling to the event by TTC, exit the King or Queen streetcar at River Street. The event site can be accessed from Bayview Avenue just south of King.

For more information or to RSVP, please contact Kristy Findlay at kfindlay@twaterfront.ca.

We are looking forward to seeing you on March 27, 2006.
