

NOTICE OF SUBMISSION OF ENVIRONMENTAL ASSESSMENT REPORT Don Mouth Naturalization and Port Lands Flood Protection Project

The Toronto and Region Conservation Authority (TRCA), in cooperation with Waterfront Toronto (WT), has completed the Environmental Assessment (EA) for the Don Mouth Naturalization and Port Lands Flood Protection Project. As required under section 6.2(1) of the *Environmental Assessment Act* and according to the Terms of Reference approved by the Minister of the Environment on August 17, 2006, the Toronto and Region Conservation Authority has submitted its environmental assessment to the Ministry of the Environment for review and approval.

This project will transform the existing mouth of the Don River (the "Don Mouth"), including the Keating Channel, into a healthier, more naturalized river outlet to the Toronto Inner Harbour and Lake Ontario, while at the same time removing the risk of flooding to over 290 hectares of urban land to the east and south of the river.

Project Study Area

As required under the *Environmental Assessment Act*, the environmental assessment will be available for public review and comment from **December 17, 2010 to February 11, 2011**, during normal business hours at the following locations:
