

Transportation Routing During Stage 1 Construction

Fall 2012 – Summer 2013

In November, traffic will move one-way westbound with temporary TTC bus service.

NOTE!
Cyclist route improvements between Lower Yonge St. and Parliament St. will be complete in Spring 2013

LEGEND

- Vehicular traffic
- Temporary TTC 509 Bus route
- Sidewalk access maintained
- TTC stop
- Detour cyclist route (east and westbound)

PEDESTRIAN ACCESS

Pedestrian access will be maintained at all times. When work is occurring on the sidewalk, safe pedestrian passageways will be set up to divert pedestrians north or south of the construction area.

CYCLIST ACCESS

The detour cyclist route – an asphalt trail located in the boulevard area on the south side of Lake Shore between Lower Spadina Ave. and York St. – will enable cyclists to bypass most of the construction area. Cyclists may use this route for either eastbound or westbound travel. Westbound cyclists may also ride alongside vehicular traffic through the construction zone. Appropriate signage and pavement markings will direct cyclists through the area.

TTC

There will always be TTC service on Queens Quay. In November, 2012, the 509 replacement bus will travel south from Union Station on Bay St. and travel one way westbound on Queens Quay to Exhibition. Eastbound service will run on Lake Shore Blvd./Harbour St. to Bay St. where it will travel north to Union Station. Westbound stops on Queens Quay are at Bay, York, Simcoe, Rees and Spadina. Eastbound stops are on Lake Shore Blvd at Stadium, Bathurst, Dan Leckie, Spadina, Simcoe and Bay St.

VEHICULAR TRAFFIC

Starting November 2012, there will be one-way westbound traffic on Queens Quay between Bay St and Lower Spadina Ave. All driveways and north-south streets will remain open and accessible. Eastbound traffic will be diverted north on Lower Spadina Ave. to Lake Shore Blvd./ Harbour St. Eastbound traffic will not be permitted between Lower Spadina Ave. and Bay St.
