CONSTRUCTION NOTICE #6 Queens Quay East Interim Improvements (Lower Jarvis to Parliament)

For the two-week period from November 9 to 21, 2014

PROJECT SCOPE

The construction of a new Martin Goodman Trail and sidewalk on the south side of Queens Quay is well underway. Over the next two weeks, crews will be working as follows:

Zone 1 – Lower Jarvis Street to Dockside Drive:

Granite installation at the head of the Jarvis Slip will be finished on Friday, November 7. Crews will then reconfigure the sidewalk area to route pedestrians onto the new granite so that work can begin on the construction of the sidewalk and Martin Goodman Trail between Lower Jarvis Street and Dockside Drive. During this phase of work, which is expected to be complete in late November, cyclists will be required to share the road with vehicular traffic.

Zone 3 – Bonnycastle Street to Small Street

Work continues on the installation of the granular base required for the construction of the new sidewalk and Martin Goodman Trail in this area. Crews will also continue the installation of cast-in-place curbs and sidewalks. Asphalt for Martin Goodman Trail will be paved between the middle and end of November.

Zone 4 – Small Street to Parliament Street

Over the next two weeks crews will continue the installation of cast-in-place curbs and the new sidewalk. Asphalt for Martin Goodman Trail in this area will be paved between the middle and end of November.

Zone 5 – Parliament Street & Lakeshore Boulevard crosswalk work

Crews expect to begin the construction of a new crosswalk along the east side of the Lakeshore Blvd/Parliament St. intersection. Crews will begin by removing the existing median island and guardrail so that a safe crosswalk can be installed.

Zone 2 – Richardson Street to Bonnycastle Street

Crews expect to complete all required removals and the installation of sidewalk granular base in the next two weeks. Due to the removal of the asphalt path on the south side of Queens Quay, pedestrians are being directed to use the sidewalk along the north side of Queens Quay.

: Crosswalk to be installed east of Gardiner column

Pedestrian, Cyclist and Vehicular Access

The eastbound curb lane will be closed to cyclist and vehicular traffic between Jarvis Street and Dockside Drive and Small Street and Parliament Street. Cyclists and vehicles will be required to share the remaining eastbound lane of traffic. Pedestrian access east of Lower Sherbourne to Lake Shore Blvd will be closed on the south side of Queens Quay, please use the north sidewalk in this area. Signage will be in place for any required pedestrian diversions.

Municipal Services Work

Municipal services work is underway to support new developments in East Bayfront including Bayside and Monde. The majority of work is occurring along Bonnycastle Street / Queens Quay East. The construction of new sewers on Queens Quay/Lake Shore from Bonnycastle to Cherry Street is expected to commence shortly. Traffic diversions will be required to accommodate the construction of the new sewers located within the road.

For more information about this work, please email info@waterfrontontario.ca or for urgent construction issues, contact Ed Sarsam, PCL Constructors Canada Inc – (416) 677-9287.
