

PROJECT: UNDER GARDINER

Notice of Upcoming Public Consultation

We invite you to join us at the second public meeting for Project: Under Gardiner and the related Environmental Assessment.

The Project

Waterfront Toronto and the City of Toronto are developing 4 hectares (10 acres) of new public space on underused land under the Gardiner Expressway. The space will connect seven neighbourhoods with a new 1.75-kilometre multi-use trail and spaces for cultural programming between west of Strachan Avenue and Spadina Avenue.

At this meeting, we will provide updates on the design, public consultation to date, proposed air quality assessment and the Environmental Assessment.

The Environmental Assessment

Waterfront Toronto and the City of Toronto have initiated a Schedule 'C' Municipal Class Environmental Assessment (EA) to study the municipal infrastructure required for a new pedestrian crossing at Fort York Boulevard, a component of the larger project. The study will follow the requirements of Phase 1 through Phase 5 of the Municipal Class Environmental Assessment to examine the need for the infrastructure and evaluate alternative solutions and alternative design concepts.

How to Participate

If you are unable to attend the meeting, the presentation and display boards will also be made available online for viewing and public comment the week of June 6, 2016. Subscribe to the mailing list to receive updates on when and where these materials will be available: www.undergardiner.com/connect.html
